ABOUT US

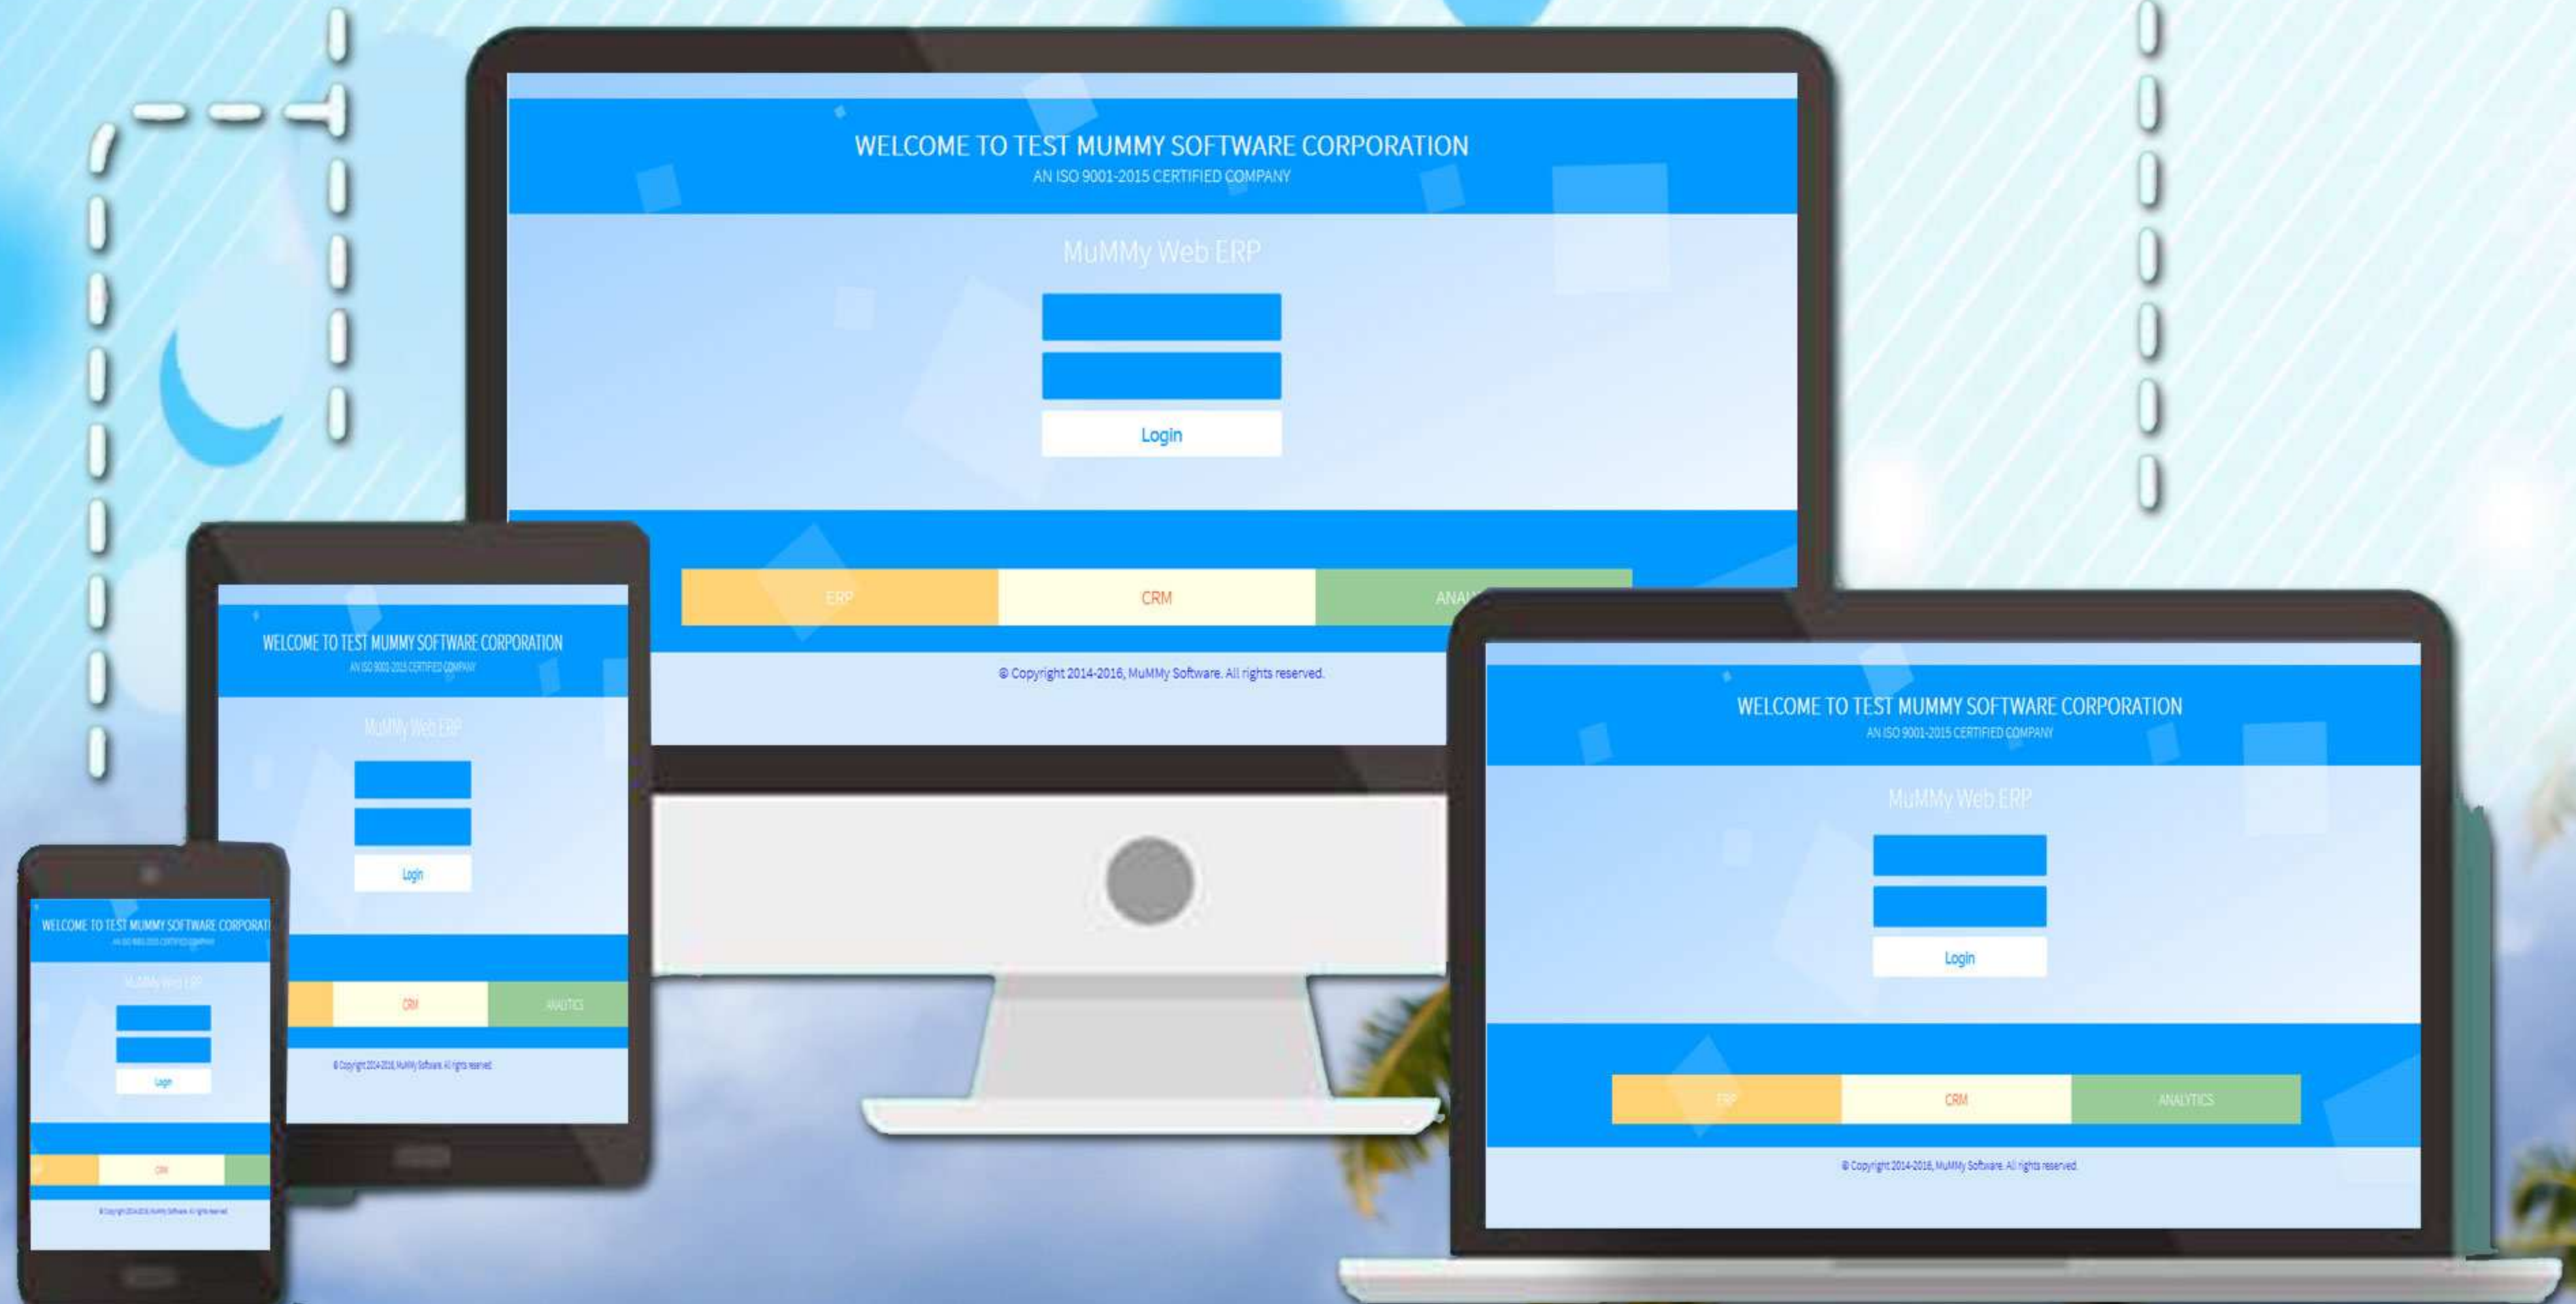

About Mummy Software Corporation

MSC is a business Software applications and Services provider serving small and medium enterprises since 2004. We are the Developers of all kind of Database software applications in the field of Enterprise Resource Planning and web applications. MuMMY Software was set up in the year 2004 as a Software Development Company. Started with a single product named MuMMY Accounting in the year 2005, the company has expanded manifold thereafter with a wide range of products in the field of Enterprise Resource Planning (ERP), Customer Relationship Management and Compliance Management for various trading and manufacturing vertical industries. In the year 2006 the company also stepped into education sector to expand its horizon by giving education. There after we step into online Pharmaceuticals Marketing Software. & Launch Successful ERP in Hospital Sector & also expand Industrial ERP with latest technology so that ERP should run on mobile & anywhere any time concept.

Our expertise in providing integrated ERP Software, CRM Software to hundreds of customers till date, helped them to meet their business goals. ERP solutions developed by MuMMY are characterized for its flexibility and scalability which helps to assist making strategic decisions to manage supply and chain of raw materials to finished goods. On- Cloud ERP and CRM products are cost effective for micro enterprises to small and medium business, keeping in mind the needs of the manufacturing industry we have designed this business model on cloud which is based on nominal charges on a monthly basis so as to make feel the vendor as like they have hired an IT Manager for management of ERP system for his enterprise.

Equipped with qualified professionals, we are the pioneers in providing the best solutions in ERP, CRM and Business Analytics Software & Applications that bridges the gap between multi city and multi units managements, thereby making it easier to access real-time data & information across various stages. Access to our applications has been made available at mobile and tablet devices as well for real time visibility while on the go.
